Welcome Message

CIGRE-KOREA (Korea National Committee on Large Power System) hosts 2017 CIGRE SC C3 Meeting at COEX in Seoul from September 25th to 29th, where the latest technical expertise and various issues on the electric environment will be shared and discussed. At the same time, diverse activities will be held: Working Group Meeting, Study Committee Meeting, Electric System Environmental Technology Conference and Exhibition. Moreover the International Tower Design Awards are hosted as a special event by Korea Electric Power Corporation with a view to discover and spread environment-friendly tower designs that could be a future model internationally accepted by alleviating the negative images of the steel towers since last long decades. For these events, more than 300 professionals from about 30 countries are expected to join from related industries and academia.

At the same place, 2017 SIEF (Seoul International Electric Fair) will be also held as the annual exhibition for power manufactures focusing mainly on the coming environment-friendly electric power equipment: switchgears, transformers, ESS, etc.. Besides, other future prospective industrial issues will be displayed in order to create future business model dealing with: Super high voltage transmission and distribution facility (HVDC), Overhead transmission and distribution system, Underground transmission and distribution system and Diagnosis system for electric power facilities.

With these in mind, the organizing committee is working around the clock to prepare for forward-looking programs and to ensure the effectual communications amongst interested parties in the four corners of the world.

I am looking forward to having the opportunity to welcome you all in Seoul, an ineffable world-class city where contemporary lifestyle meets long standing history.

Ja-Yoon Koo
Chairman
2017 CIGRE SC C3 Meeting in Seoul

It is our pleasure to host the “2017 CIGRE SC C3 Meeting in Seoul” for five days from Sep 25 to 29 in Korea, where you can meet the global activities related to electric environments of large power systems in one place. For CIGRE Korea National Committee, it is the 3rd CIGRE SC meeting hosted in Seoul and has been eight years since the successive ending of 2009 CIGRE SC B2 Meeting. We are full of will and desire to hold this meeting more successfully than two previous meetings and urge you for your cooperation.

At this 2017 CIGRE SC C3 Meeting in Seoul, members and related persons from all over the world will gather together to share advanced environment-friendly technologies for electric power systems as well as draw and spread realistic and future-oriented results through the official and special events of Electric Environmental Technology Colloquium and International Tower Design Awards to every corner of the globe to reduce the consuming social conflicts such as related to the construction of new electric transmission lines.

It will be a great honor for us and we expect to meet all of you at 2017 CIGRE SC C3 Meeting in Seoul on September 25 through 29.

Lastly, let me extend my sincere thanks to Henk Sanders, Chairman of CIGRESC C3, Lugschitz Herbert, Chairman of CIGRE SC B2, supporting institutions and committee members for the continued support for the success of this meeting.

Dr. Dongil Lee
CIGRE SC C3 Korean Delegate

2017 CIGRE SC B2 & C3 EXHIBITION

EXHIBITION OVERVIEW

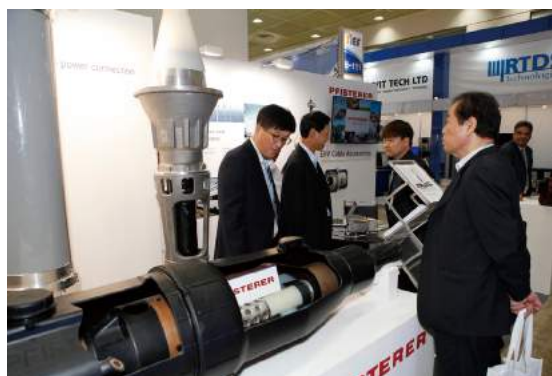

Title	2017 CIGRE SC B2 & C3 EXHIBITION
Period	SEP 27(WED) ~ 29(FRI), 2017
Venue	COEX Hall A
Organized by	CIGRE KOREA NATIONAL COMMITTEE
Supported by	Ministry of Trade, Industry and Energy Korea Electric Power Corporation Korean Institute of Electrical Engineers Korea Electrical Manufacturers Association Korea South-East Power Co., Ltd.
Participants	about 20 companies
Simultaneous Exhibitions	Seoul International Electric Fair, International Climate Change Expo, InterBattery Korea Smart Grid Week, Power Generation Korea, EV Seoul

EXHIBITS

Environment-friendly electric power equipment
Overhead transmission and distribution system
Underground transmission and distribution system
Ultra High Voltage Direct Current Transmission System (HVDC)
Diagnosis system for electric power facilities

Simultaneous events

Electric Environment Technology Colloquium
CIGRE SC C3 General Meeting
CIGRE SC C3 and B2 Tutorials
International Tower Design Awards

Reasons why you should attend the exhibition

Maximize the effectiveness of your promotions by showing your brand and latest products during the exhibition period.

The constantly evolving exhibition space

1

KEPCO has decided to invest KRW 5 trillion by 2021 to improve the power transmission and distribution facilities and to invest an additional 45 billion won a year on an average of 11 billion won by 2019 in order to establish a comprehensive preventive diagnosis system for power transmission and distribution at substations in the country.

An excellent platform to expand your marketing reach worldwide

2

With direct marketing to approximately 30,000 visitors and buyers visiting the exhibition, you can further enhance your product and brand awareness and get instant feedback(the number of SIEF visitors: 29,000 in Korea / 1,000 overseas)

Strengthen your brand and product credibility

3

By announcing the results of scientific research on your products, brand and product reliability will be enhanced. In a short amount of time, you will be able to see much of the market and see the potential for business expansion into new areas.

Form new partnerships

4

Meet your industry colleagues, power industry companies in Korea, power transmission specialists, scientists and marketing experts in one place. Open networking opportunities enable you to build and strengthen long-term business relationships.

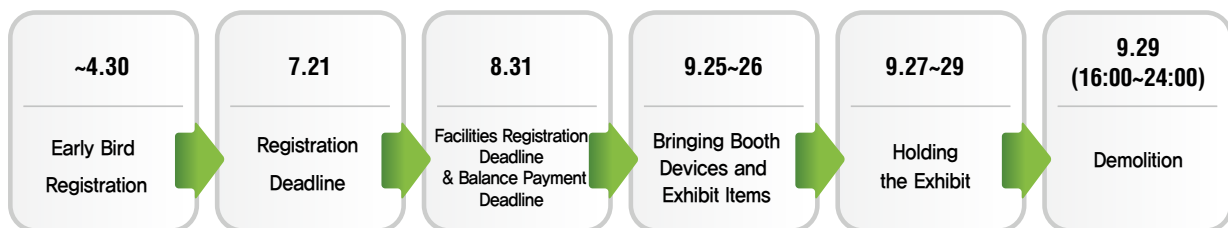

For Participation

Application deadline

By July 21(Fri)

Detailed timeline

Participation Fee

Classification			Price/Booth(9m ²)	Others
Overseas	Shell Scheme (premium type)	1 Booth	US\$ 5,000	– 10% VAT no included – Booth installation change is allowable for 2 booths by prior consultation – Participant benefits free admission for 2 people to 2017 SC C3 CIGRE Meeting in Seoul
		2 Booths	US\$ 10,000	

※ Foreign exchange rate for remittance on deposit day will be applied when overseas company pay participation fee in Korean won.

Participation Fee Payment

- 1st Payment: 50% be paid within 7 days after application form submission
- the Remainde: By July 25(Tue)

Bank Name	Account No.	SWIFT CODE	Account Name
WOORI BANK	1005-903-170587	HVBKCRSE	CIGRE KOREA

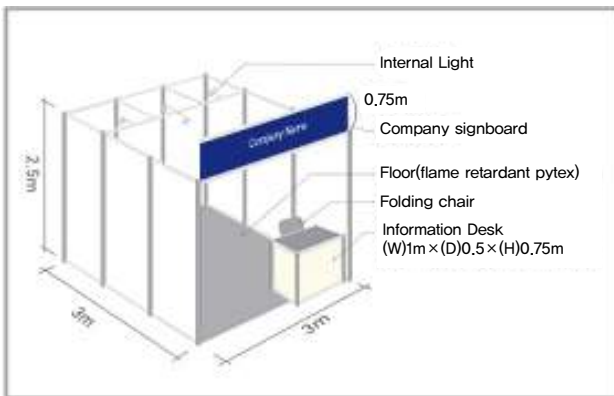

※ Payment of total amount is needed for applications after July 21(Fri), 2017

※ The participation fee must be paid by company name, and the remittance fee will be borne to exhibitor.
